**(1) Monthly Copy Commitment:**

Vendors are asked to provide the minimum number of copies that are to be counted each month in the base monthly maintenance charge. The State will be billed for the base number of copies monthly, whether or not a specific copier makes that many copies. This minimum copy requirement should be provided for all proposed copier models. The minimum copy volume provided will be multiplied by the maintenance CPC to calculate the base maintenance charge per month.

**It is not mandatory for a vendor to provide a monthly copy commitment. If no response is provided, it will be assumed that the commitment is zero (0) copies per month for the specified model.**
